

THE TECH ADVANTAGE: TRANSFORMING YOUR DENTAL PRACTICE INTO A GROWTH POWERHOUSE

A webinar to Power What's Possible at your practice

Join founder of igniteDDS and chief editor at DentistryIQ Dr. David Rice to explore the cutting-edge technologies that are reshaping the landscape of dental practices in 2024. Discover how leveraging the latest advancements in CBCT, scanning, milling, printing, all-tissue lasers and artificial intelligence enhance patient outcomes, streamline your patient care processes and propel practice growth.

Webinar objectives:

- Gain a global look at the top technologies driving the top performing practices in dentistry today
- Understand which technologies fit your practice right now and why
- Learn to sequence your investments to deliver optimum patient care and ROI
- Leave with a tech onboarding process that empowers your team

Join us and bring your questions.

DAVID RICE, DDS

Founder of the nation's largest student and new dentist community, igniteDDS, Dr. David Rice travels the world speaking, writing and connecting today's top young dentists with tomorrow's most successful dental practices. In addition to igniteDDS, Dr. Rice maintains a team-centered restorative and implant practice in East Amherst, New York. With 26 years of practice behind him, he leads the faculty at igniteDDS University and is a guest lecturer at The Pankey Institute and The Dawson Academy.
