# Beyond Limits: Unlocking the Full Potential of Digital Dentistry for Maximum ROI

## COURSE DESCRIPTION

This advanced course empowers dental professionals to unlock the full potential of 5-axis milling. Gain valuable insight on enhancing precision, expanding treatment options, and increasing in-house production from a clinicians' perspective.

Learn cutting-edge CAD/CAM design strategies and efficiency techniques to maximize ROI, reduce material waste, and stay ahead in digital dentistry. Even those that have incorporated chairside milling into practice will benefit from this course. Uncover new and advanced techniques while discovering additional applications that can be implemented in-house.

## COURSE OBJECTIVES

- Review powerful software features to boost accuracy and automate workflows.
- How to expand in-house capabilities to take on more complex cases with 5-axis milling.
- Develop key strategies to maximize profitability and ROI.
- Apply techniques to save time and materials that increase efficiency and minimize waste.
- Discover how to attract more patients and increase case acceptance.
- Produce superior restorations through a fully digital workflow with seamlessly integrated 3D printing and milling.
