**Join us to learn about Solea**

**“Solea in Dentistry”**

The worlds first and only CO2 laser for ALL tissue

**TOP GOLF**

**4050 W Costco Dr**

**Tucson, AZ 85741**

**Thursday, November 11<sup>th</sup> | 6:30 PM**

Solea is a CO2 laser that can cut all tissue in the mouth. Due to its dynamic technology and one of a kind wavelength, Solea performs hard tissue procedures reliably anesthesia free and is virtually blood free on soft tissue. What would it mean to you if could remove anesthesia and blood from your workflow?

Key Learning Objectives:

- Learn how to perform more same day dentistry & multi-quadrant dentistry with Solea and how this outcome changes your practice.
- See how you can expand your practice with new procedures available to you via Solea
- Learn how Solea expands your new patient reach and additions.

**To attend, please contact your Patterson Dental representative**
